Subject: iMap Ministry Report

To: Jim Zeik <zeiksx7@gmail.com>

Dear Pastor Zeik,

Thank you for your prayers and support this month for iMap. It has been an interesting and different month for us. With the Hurricanes hitting Texas and Florida, iMap helping with both relief efforts, and finishing the computer project for the middle east, we have been busy. I have been praying for the efforts, Churches, and relief for all of those affected by the weather we have seen hit our country. I have been encouraged by the work of so many churches and Christians helping in this area. I just received a text from Judi, who is in Rockport, Texas helping a friend, that the church they are working through, had their building destroyed, and that the other churches in the area have raised enough money for them to rebuild. That is what God can do when His people pull together.

Thank you for your help with this ministry. We were able to help the relief effort as a result.

Serving Him,

Received: \$60.00

Bob Hines
